SUMMARY

Enthusiastic Mobile Software Engineer specializing in Flutter with an ongoing focus on learning iOS Native development. Adept at consistently delivering high-quality, clean code across diverse projects.

PROFESSIONAL EXPERIENCE

Flutter Developer, CloudSoft5

02/2024 – present

- Spearheading the maintenance and enhancement of existing Flutter-based projects, ensuring optimal performance, and promptly addressing issues.
- Developing cross-platform mobile applications for Android and iOS using Flutter, with a focus on writing clean and efficient Dart code.
- Seamlessly integrating third-party APIs to enhance app functionalities.
- Collaborating closely with cross-functional teams, actively participating in team meetings, and maintaining comprehensive documentation.
- Proactively identifying and resolving issues, conducting rigorous testing, and optimizing applications for improved user experiences.
- Staying abreast of the latest technological trends and innovations to contribute to the ongoing success of projects.

Flutter Developer, Hossam X Studio

08/2023 – 02/2024

- Developing cross-platform mobile apps for Android and iOS using Flutter.
- Writing clean and efficient Dart code, integrating third-party APIs, and implementing UI/UX designs.
- Conducting testing, debugging, and optimization.
- Collaborating with cross-functional teams and maintaining documentation.
- Staying updated on tech trends.

Freelancer

10/2022 – present

- Working on various online projects as a Flutter developer.
- Developing and maintaining mobile apps, collaborating with remote teams, and creating user-friendly interfaces.
- Conducting testing and debugging to ensure app stability.
- Continuously learning and experimenting with new features and technologies.

PROJECTS

Kenooz

Available on: [App Store](#) / [Google Play](#)

Gold Accesories shop for single vendor. Delivering a seamless shopping experience, the User App and Vendor App provide an intuitive interface for customers and a comprehensive management system for vendors. The applications ensure a smooth browsing and purchasing journey for users while empowering vendors with efficient product management and order processing capabilities.

Zone

Developed a multi-vendor e-commerce consisting of four interconnected apps:

- User App: [App Store](#) / [Google Play](#) . Vendor App: [App Store](#) / [Google Play](#)
- Shop App: [App Store](#) / [Google Play](#) Delivery App: [App Store](#) / [Google Play](#)

Implemented features for seamless shopping experiences, product listings, and secure transactions. including vendor management, order tracking, delivery, and user-friendly interfaces. Collaborated with cross-functional teams to ensure smooth integration and functionality.

Using Bloc state management and architecture, dio for API call, dark & light theme, localization, fcm, google maps

Ask Bank
